Subject: FW: [REDACTED] Brockton District Court case

Hi Annie-

You are probably aware of this case already, but in case you weren't I thought I'd pass it along to you (you are the 1st chemist for these numbers, as well as for [REDACTED]). When you have a chance (no rush since the trial isn't until May), would it be possible for you to email me the files for the MS data? Thanks.

Also, Peter mentioned that you have tested for lisdexamphetamine in the past. I believe he said that it is an "E", but if you have a mass spectra or IR of it, would you mind getting a copy to me? I'm having some trouble getting it (I wasn't aware it was an "E" ahead of time), and I'm a little bit worried as the MS gave me a peak much later than I thought with a huge 84 peak. Thanks again.

-Sonja

Subject: [REDACTED] Brockton District Court case
Hi,

I was recently assigned the [REDACTED] drug case in the Brockton District Court. It's a 2004 case which was granted a new trial based on Melendez-Diaz. You performed analysis on the drugs back in 2004 ([REDACTED]). Could you please send me a copy of your resume so that I can provide it to defense counsel? The case was recently marked for trial on 5/16/11.

Thanks,

Tim Kenny
